

# Try It Out

To access the demo ("CCCC Connections") site, click here:

[ENTER THE DEMO SITE](#)

Then you can log into the CCCC Connections site in one of two ways:

1. Click the **User Login** button (on left) to assume the identity of one of the "canned" members. When prompted for a Username and Password, use one of the Usernames below, and a Password of **demo**. The "canned" usernames are:

Abigail	Jennifer	Shmuel
Benny	Kwami	Teola
Candace	Larry	Uncle
Dosan	Mfume	Venus
Enos	Nancy	Wally
Francis	Opie	Xanadu
Geoffrey	Patrick	Yurt
Hank	Quentin	Zarathustra
Izzy	Rasta	

2. Click the **Register Now!** button (on left), and fill in the Registration Form to create your own identity.

Notes:

- When you register for this demo your account will be active immediately, and you can log in and use the various features. Most real CommuniShare applications are set up to more rigorously validate registrants as members of the community.
- Any new members created by this method (as well as their Entries) will be deleted when the site is periodically reset.

## About this demo site

This demo site is a working model of a CommuniShare application for a fictional community, the "CommuniShare County Community College" (CCCC). This "community" is composed of students, faculty, staff, alumni and local area residents. The demo has actual "canned" entries posted in it by a number of "canned" members of the community.

You'll be able to log in as one of these "canned" members, or create a new member identity. In either case, you can search for or browse the entries posted by others, add (and modify or delete) your own entries, view member profiles, read the FAQ's and so on. (What you won't be able to do is send emails to other "canned" members, since they don't really exist.) However, since this is not an actual community, the index will be periodically reset, and all "new" (that is, other than "canned") members and entries will be deleted.

So, while this is not a "real" CommuniShare application for a "real" community, it should give you an idea of how the service works from the perspective of a member. To discuss this demo and additional functions and features, or to arrange for a private tour of the administration interface, please contact us [here](#).

## Starting a CommuniShare application for your community

Starting a CommuniShare application for your community is simple, and it can be easily customized to reflect your own community's unique characteristics and requirements. [Click here to find out more.](#)
